

US2 As an author, posts I create can link to images.

US7 As an author, posts I create be private to only friends on my host

US8 As an author, posts I create can be public.

US9 As an author, posts I make can be in simple plain text

US10 As an author, posts I make can be in markdown (commonMark is good)

US17 As an author, I want to feel safe about sharing images and posts with my friends – images should not publicly accessible without authentication.

US28 As an author, I want to be able to make posts that are unfriended, that are publicly shareable by URI alone (or for embedding images)

US18 As an author, I want unfriended local and remote authors

US24 As an author, When I befriend someone it follows them, only when the other authors befriends me do I count as a real friend.
