- US1 As an author I want to make posts.
- US13 As an author, I want to post posts to my "stream"
- US21 As an author, other authors cannot modify my data
- US22 As an author, I want to comment on posts that I can access
- US11 As an author, I want a consistent identity per server
- US26 As an author I should be able to browse the public posts of everyone
- US27 As an author I should be able to browse the posts of others depending on my status
- US12 As an author, I want to pull in my github activity to my "stream"

- US18 As an author, I want to un-befriend local and remote authors
- US24 As an author, When I befriend someone it follows them, only when the other authors befriends me do I count as a real friend.
